He may not be a celebrity, a high government official or a captain of industry. But, for his contribution to the welfare of his community, he deserves to have a carpet rolled out for him!

He is the typical life insurance policyholder — a man whose influence on your standards of living, health and happiness is greater than you may think! In fact, almost everywhere you look there are signs of the benefits he brings to others, as well as himself.

Take that handsome new school in your community, for instance. It might be one of the many vital projects that part of his premium money, invested for him by a life insurance company, has helped to build.

In the same way, he has played a part in providing new highways, industrial plants, waterworks, electrical power stations, housing, oil pipelines and many other important projects in your own or other communities.

Yet perhaps the most important thing he does is just to stand on his own feet financially. As an owner of life insurance he is doing his best to make sure that he and his family will always be independent. No wonder were rolling out the earpet for him — and the millions of Canadian policyholders he reconstruction.

Right from the start - you'll love it!

IT ISN'T always the big things that tell you how downright good a car really is.

You'll note, for example, that this Buick has -not one-but two sets of figures on its speedometer. There's one for total mileage, which almost all cars give you. And there's one for trip mileage, found on all Buicks, but rare on other cars carrying comparable price

Then there's the way a Buick starts. No grops ing for a starter button on the dash. You just push down your foot on the accelerator pedal and one motion does the whole job.

That's something else found only on a Buick -and we can give you a good guess what the reason is-it's a costlier device.

And when you step on this combined starter accelerator-boy, do things start to happen! That great-powered Fireball 8 Engine purrs into action-and you're off with the steady swoop of a Diesel streamliner on the rails.

Now, you discover something else, Buick's Million Dollar Ride. Sure-footed on curves. level-gaited on the straightaway, steady and true on course—it's worth every dollar it cost in tools, engineering and special featuresincluding the magic of Dynaslow Drive.* What we are trying to tell you is this:

No matter how you size up a 1952 Buickby its features, its fabrics, the way it performs, the way it rides-or the cost per mile of operation—you find that nothing is spared to make it the greatest buy it has been in years.

And that's doubly significant when you remember that Buick delivered prices start

Vic Bagnaid, one of Toronto's boxing experts, plus being a belura good fullow otherwise, dropped in the office yesterday on his way to Kingston, in charge of a half dozen Toronto boxers who fought down thataway last night.

We asked Vic what he thought of the Charles-Walcott de-taion and the Bagnato schnoozie wrinkled a trifle in a sijent but fleotive answer.

"I wagered a ten-spet on Jersey Joe" smiled Vic, "but it seeing the fight on televisies, I was convinced Charles the winner."

That the referee was definitely in favor of Walcott is seen to the fact that he awarded the Camden granpaw the last two rounds when be hardly throw a punch and seemed satisfied he could win on his sarily rounds-performance.

And as We Bagnate opined, "It was ald-age, the under-dog and a homelewn crowd judges and referee that cast the die of victory to the winner".

And the little Toronic ex-champion, ex-RCAP corporal and he greent moment district sales representative of the Schen-Distilleries Corporation nummed it up, "Walcott knew warned warned by do all through the fight — but he couldn't do it."

And in good-natured rebetial to Vie, Charles comes un-der the same oategory. It just grove to what new low heavy which boring has game. A Demper, Tanney, Louis, or even seems of the losser lights of the good old days when fighters were fifthers and not grandfathers or measurable-provers could have whipped-both at the same time, blindfolded and sur-hand secured behind him.

... the building of my herd"

Many a farmer knows that initiative, hard work and the financial support of the bank can all play their part in developing a successful farming operation.

One such man, a rancher in the West, recently wrote to his bank manager:

"I wish to express my appreciation of the way your bank has treated me through the years . . . the encouragement you ha given me in the building of my herd. I feel the success we have achieved could hardly have been obtained without your intelligent support."

The farmer uses bank credit in many ways: to develop his land, buy livestock and equipment, market crops. Aiding Canada's food producers is an important part of the broad service the chartered banks perform for all Canadians.

Hydro's New Otto Holden Generating Station on the Ottawa River...

The official opening of The Otto Holden Generating Station on June 10, by the Honour-able Leslie M. Frost, Prime Minister of Ontario, marks another important advance in your Hydro's expansion program planned to raise Hydro's expansion program planned to raise dependable peak capacity (purchased and gen-erated) to 5,771,600 horsepower by 1955— more than double the dependable peak capacity of 2,597,185 horsepower of 1945.

Otto Holden Generating Station, near Mattawa, Ontario, is the first link in the integration of the power systems serving southern and northeastern Ontario. The first four units of this station will supply 102,000 kilowatts

(136,000 horsepower). Three more units to be placed in service this year and one early in 1953 will bring total capacity to 204,000 kilowatts (273,000 horsepower).

On this occasion, the Commission extends thanks to the Statesmen and extends thanks to the Sattesman and Engineers whose foresight and leadership conceived and designed this project . . . to the suppliers who provided the building materials and equipment . . . and to the men of Labour whose skill and industry combined to make possible the completion of Otto Holden Generating Station on schedule.

Take Time To Be Holy

Take time to be holy, Speak oft with thy Lord; Abide in Him always, And feed on His Word; Maka friends of God's children, Help those weak, Forgetting in nothing His blessing to geek.

Take time to be holy, the world rushes on;
Spend much time in secret,
With Jeaus alone;
By looking to Jeaus, Like Him
Thou shall be;
Thy friends in thy conduct,
His likeness shall see.

Take time to be holy, Let Him be thy Guide, And run not before Him, Whatever betide; In joy or in sorrow, Still follow thy Lod, And, looking to Jeaz, Still trust in His Word.

Take time to be holy, Be calm in thy soul.

Each thought and each motive Beneath His control;

Thus led by His Spirit to foundains of love,

Thou soon shall be flitted For service above.

Kingston Monarchs Hand Redmen First Defeat Of Season With 8-6 Win

The Bellaville Redmen, with a little luck, and a little more drive on the base paths, might bave nailed down their neutris straight win late Central Ontario League Lat even-ing, but they didn't have it, and dropped their first pane 1-8 de the Kingrish Misarach. It was a predty fate game that picked my as it moved thoug, with most of the excitement being crammed into the final few insings.

The Monarchs took a 5-9 lead in the first five and a half ames, and made it look eary as Wally "Babe" Stinson blew a Reds down with a us-hitter, but hit yern ober, pinchitting in the air-th with one away, got the Redmen set of cir wijawana with the first ident. The big fellow then sufficed of the occord base like he sweet it. He strived in sheffed off to rotong base like he owned it. He arrived in such a cloud of dust that the ritary from the plate sowned into the fog and couldn't be located until it was well on the way, linte centre field. Vern, who somehow lest his cap in the grammle, wasied a few precious steps retirering it before taking off for third. He came charging his before thing the second base dust off his cap and rot it clean just in thus lot create bushler analitering at third to mark his safe

This joily performance was just enough to spark the dor-mant Redmen. Earl Buth mapped his wrists just right and was rewarded with a home run over the right field fence.

a rewarded with a bone run over the right field tends. Petititis triple and Mathellander double in the initid, had local fams all steamed up at the finish. It would have been cool grams for the Bedis to win, but they had somewhat of eff night and the Monarcha were due sarway. The fams had so of excitement too, with 24 hits, and 1s strikecanis mak-up for the raw spois.

John Fan is a funny animal. He's as fickle as spring in Scot-land; your here-worshipper one minute and your severest critic the next. His tastes run from the bizarre to the ultra-tops and you never know whether you're a bum or a hero.

Take the blood-thirsty type. He'll eschew a western or a whodunit where gore spills over the curb, to see a real-like bone-cracker of an automobile race, or a rough and tumble hockey or

sacrouse game,

"Which recalls the incident of Dick Burrows' Speedway Parkland on opening day a year ago. Seven throttle-pushing hellions
were rearing around the oval at a fail ristly milles per hour when
suddenly one went out of control, hedge-hopped a dilch, broke
down a clump of bushie and rolled over thirds "dever the heap
milded upoide down with its whech rishloth opward like the legs
of a mag which has departed for polich haven filter days nince.

The crowd, aghast for a moment, let out a roar of excite-nt. People converged from all points like anis from a hill, to spot where the car lay. Even as they ran the hesp salvered shoot and from its inared stepped the driver, with nothing re to show for his experience than a torn shirt.

The crowd gasped. This time in disappointment. We halled a returning customer and asked him if the driver was hurt.

"Hurt, hell" he exclaimed in a disappointed tone of voice, other, he ain't even scratched."

But that's the thrill of auto racing, we're told. People who by the sport go there scared to death if a car turns topsy turvy by the sport go there scared disappointed if it doesn't.

There was a touch of mystery connected with one of the racing "heap?" that took part in the races at Speedway last Wednesday night, Willie Peoples, a Belleville youngier with a yen for driving approached Dick Burrows with the query "Is there are are sround here I can driver?"

He roared round the track and finished in the ruck, But the itiac seemed fired with new life.

Peeking under the bood to see if the engine was still there. Burrows discovered silver-like streaks running down the oil in-take. He was puzzled. Then he remembered he had removed the engine oil from the office but there had been a five gallon can

WHEN DAD WENT TO COLLEGE!

WHEN DAD WENT TO COLLEGE:

Today's grown-up like to portrue, themselves as solemn, righleous, duttful students two or three decades ago. But we seem to remember that in the 1920's some pretty weird goings-on-could be observed on the campus scene.

Sainrday, II Miguet writes that Peterborough observers feel there was much afe about nothing on the incident. This statement was based on the fact that the Peterborough sports editor apparently refained from any written comment on the Incident.

Devrine's action in "stepping on" affairs of this mature is to be commended. Last year, in case Mr. Rodden is not ware of the fact, there was far too much unpire-balling in the OORL, and the majority of players and cind officials get away with it. Devine decided ton ight be business in the bud at the start of hostillities, and the excessive backed

Furthermore, Prexy Devine in a circular letter to all three clubs in the COBL warned all and sundry that a repetition of ampire-pushing will draw the maximum puhishment.

Years ago the Central Ontario Bareball League then com-posed of Belleville, Kingston Peterborough and Osbawa, was one of the best senior baseball organizations in Ontario. Its teams, walked off with the provincial title on more occasions tana a few, defeating the best the rest of the province, repedially wes-tern Ontario, could produce. These good old days perhaps, are not barded in Mr. Rodderis jurborous of memories.

The league died a slow and painful death in the late thirties d later was revived with entries from all over the district ams from Batuwa, Napanee, Picton, Belleville and Kingston de up the league and later the district was extended to Brockle and Smiths Falls.

Oshawa tried to crash the Intercounty and failed. If even it faither affeld, applied for and received admission into the gara District Baseball Association. From recent reports the nawans are alightly below the calibre of the NDBBA and questing for import talent.

But that is beside the point.

But that is bestde the point. The Central Olizie Blazzbell League is once again startling from sersich with its aim the former four-team loopteam and anatomer baseball history in Ontario in the

As matters look now, the present three-team set-up seems be a good one. The Redmen have wen three of their per starts. Kingston, pre-season favorites got away to a bad tast but have won their last two rames while Feterborough

As far as the St. Lawrence Baseball League and its re-tions with the COBL is concerned, Mr. Rodden appears to be corried not a little over the set-top. The original idea of the in-trocking schedule with the SLBL was to provide new faces consideally for the fans of the western loop and vice versa-ths, especially in view of the fact that the COBL had but three

Nobody but Mr. Rodden appears to be unduly worried over joint standing. The SLBL seems to be having a good time ying out its schodule and as was said before, it looks now as ugth the three-leam COBL will develop into a tight three nered race before playoff time looms over the horizon.

THE ROYAL BANK OF CANADA

Belleville Branch: Q. H. COOK, Manager

YOU HAVE your special interest or ambition—something that means a lot to you. Today, more than ever, the trick is to plan your saving—and your spending—so that you move steadily toward your goal. Here are two suggestions:

Fustr, decide what you want most, how much it will cost, and open a special savings account at The Royal Bank of Canada for that one particular purpose. Then save for it.

SECOND, use the Royal Bank Budget Book to keep yourself on your course, and to avoid careless spending. The budget book does not suggest how you spend your money. It does provide you with a simple pattern to help you PLAN YOUR BUDGET TO SUIT YOURSELF. You can get a copy at any branch. Ask for one.

PTS THE THRILL THAT COUNTS

There's some sort of difference between a "Hell-Drivers" When the "Hell-Drivers" roar down the track you have

pre-start information as to what is going to happen. In a stock car race you have no more idea what will franspire that does the greate-streaked hellion behind the wheel. It is the unexpected that furnishes the greater thrifts. And in this thrill-crary age that is what John Y. Public

At least no one can say, with any scintilla of truth that the spills and crashes in stock car races are pre-arranged. True these youngsters driving cars that hang together by pieces of wire, with engines that appear to be in the last throes of mechanical pneumonia yet can roar around a dusty oval at

In case you haven't seen the fanards of one of these Arkian relies that smort, put's, but's, and gream with, every verolation of the wheels, they are reinforced with cross-bars of steel. Doors are lected tight. Dorrives wave erash heimeds and antity belie. In fact they become a part of the jatopy and are not subjected to the beaucing around? that occurs when an ordinary car farms

But to say stock car racing spills are "fixed" is just down-right plumb foolishness. Ask one of the drivers. He'll spilt had oll-mundged face with a while-toothed grin, and either plusk you on the noggin with a wrench or look for your white-taketed stired.

Injuries to drivers in stock car racing are as rare as a ten-deliab bill on a collection plate. Furthup this is because they depict statute the high rate of speed of the "Oile boys" on such irreds as Indianapsils where they jet around the voral at sessewhere he the victative of 155 miles per hear. In heree particular it briefed error to trucket. It gave up the ghost finally but not before it had trucket for the proper catelytich, two construction of a reasonable function of a full just-halfe dive. There it wheesed twice and try tills.

We understand the driver was shaken up con ell as suffering minor injuries. But that's the chance, and the arill of the sport. And believe it or not, that is what thrill-earching fandom loves to see.

CHIPS OFF THE SPORTS BLOCK By GEO. H. CARVER, Sports Editor

REUPTION, NOT EXPLOSION Wow, the pickerel in the Kawarthaa must have halter their bait-subbiling at the golaza-on in Feierborough has night. The Redence, tralling by an 8-2 zeror in the seventi-gisteinheit their leps, undersly hitched up their britches and poeucod ayou a brace of Feies harters like a starying teen cat on an unsuppositor robin.

And before the stunned faithful had wrung out their hankies, il runs plastered the scoreboard and the Reds ware in front 13-8. The runored that so many Red spikes cryssed the plate the dish had to be replaced before Umpire Whit-man could set clear vision.

MaCABE ON MONDAY

The Redmen meet the Oshawa Herchanis, third-place in the Niagara District Baseball League here on Moada night in an exhibition game. For Reds have won six as the even starts in the QOBL-SLML leagues and are going out-gla mother victory feather in their baseball caps at the expense of the Oshawana.

It may be a bit nostalgie for the big righthander, but Cos taiph McCabe will start on the meund for the Redm gainst the Merchants. McCabe is an ex-member of to behave funier baseball club a few years back and when soes the Oshawa uniforms Monday night, it might bet

Il will be McCabe's first appearance on the mound in Belleville for the Redmen. He worked an incluse and a third against Brockville last Saturday night when Art Wright was forced to retire with a seve arm and did a right testy lob of squelching the White Sex in the dying innings

don't know whether the Eed coach is exactly in tink of condition or not since he has been devoting nost of his practice time to plays and players and the make of the Eedmen.

Whatever other faults or good traits the Redmen have, it must be mad that so far, they have not been any absorber with the abilitation. Ginnels over the bailing averages for the seven rumor played this season, it is more than there entire to note that the Reds have a team bailing average of JTS with six of the squad bailting a over a JTS elly. Not had in any man's league.

Big Vern Goyer leads the Red sluggers with a measly 500 ting eleven clouts in 22 appearances at the plate. Vern in-ides two triples and two doubles in his collection.

Mess constrain hiter on the Red router is youthful.
Tany Petitit eacher of the club. Teny has an average locate
of ,650 and has hit in very again played that far, he his
first game he bashed out a stage and has had two hits in
each of the subsequent six games. He has three triples and
two doubles to the credit.

Paddy Gilmour has slammed out three triples and two oubles for an overage of .250, "Mouse" Bush is the only home un producer thus far with two round-trippers to his credit-ted Carson and Bob Bunton each have two doubles.

The team on a whole has batted out two homers, fifteen subles and six triples.

A DISTENCT ASSET

Pai (Paigy) Gazzo writes us from air force headquarters at Ottawa saying he has been posted to Station Trenton and will strive on July ist. That should be good news for haseball, settlal and hockey organizations of the city and district for Paigy scintilates, or did, in all three of these

He was a member of the RCAF hockey team that went to Europe and brought back the world's championalty. He played in Belleville the night the Fiyers took on the Redmen in an exhibition till.

Gazzo is a fastball hurier and played for some time with the "Pros," a team that included Big Bill Burnan and other National Hockey League stars.

KNOW why more and more, GMC's are becoming first choice of so many cost-watching truck operators in every type of hauling?

One of the big reasons, they will tell you, is they can always get a GMC that's exactly "engined" for their particular kind of work.

There is no need for a GMC owner to strain away with an underpowered truck-or lose profit to a gas eater unsuited to its job.

That's because GMC builds the widest range of truck engines in the industry -GMC famed valve-in-head gasoline engines from 92 to 200 H.P .- GMC exclusive 2-cycle Diesels from 110 to And it's the kind of power you don's Each GMC engine is specially lubri wear, specially ventilated against acid-fi -specially designed for truck duryst

Why not let us recommend the GMC trucks or six-wheeler perfectly powered for your jobs be a real truck all the way-exactly tholaigh bination of engine, axle, ere

REMEMBER, THEY'RE YOUNGSTERS!

Several complaints have been received by this department a phone and mail regarding what they term a "bad situation" minor baseball circles here.

The complaints have come from not only parents of the

It seems there are two "packed teams" operating in peewer d bantam circles, which are sweeping the opposition saide by any lop-sided scores. The fact is causing no end of disastition among players of other teams but a feeling of "not all is

If such is the case, and judging from the scores received by this department, there is a lot of truth in it, the constitution of the Minor Baschall Association is no: being adhered to. It our memory serves us correctly, when misor baseball was started here a couple of years ago, like it sister bookey, there was to be a distribution of strength so that the teams would more or est be evenly matched.

This was not done either this year or last year. In fact, three appears of last year's pecure teams "turped down" the requests or sponsorable because of the method of operation last year, dd the fact that "picked teams" dominated the leagues.

Representatives of the minor leagues will, in accordance with the minor constitution, represent the city in the Obstation Baseball Association playdowns. It is only natural that the best latient of "the city be used to carry the banner of baseball to other centres and if possible brings back a provincial champion—side, And there is a lot of truth in the fact that studyed tenant and the control of the control

But there is little sportmanship, especially when it affects pewere and bantam ranks when a team is hand-picked at the beginning of the season and rides roughshod over the opposi-lein grabbing off with apparent case all the championships in

In addition it is not fair to the "picked teams" either. They are not getting the proper competition, and are assured of victory before they step on the field. Competition is the life of victory of sport as well as trade and a victory not worth working for is not worth winning.

We asked them. "Aw, shucks," replied one. "What's the use playin' those guys. They're too darned good and they know Who wants to go out and get licked by twenty runs all the

The remainder of the teams in the two divisions, we under-stand, are fairly evenly matched. But at the moment there is little incentive for them to play.

There is only one remedy at this point of the season, as far as we can see it. That is, name these alleged "packed teams" OBA representatives immediately, declare their future games to be exhibition only and let the remainder of the teams battle it out for the city championship.

Stack up what you get for what you pay ... and join the nation's largest group of truck buyers by choosing Chevrolet

Maybe you didn's know that by far the biggest ber of truck users in Canada today are buying Chevrolet Trucks.

They are . . . and for good hard-headed reasons Because what they're after in a truck can be set down about like this:

1) It's got to be low in cost. No use paying a lot of extra money for a truck that the truck will have to earn back. Chevrolet trucks give you more for

2) Upkeep and operating costs must be low. A Truck is money-making equipment. It can't be a money-waster. Chevrolet trucks work for rock-bottom "wages" on fuel and maintenance.

3) How well the truck does the job is allimportant. It's got to have the capacity, power and rugged construction to get work done - efficiently and economically. Chevrolet trucks are engineered and built for your loads.

4) The truck must be rugged, long lasting. That's an important part of over-all economy.

Chevrolet trucks traditionally bring more at tradein, for what they cost, than any other truck.

If these considerations make sense to you, take a good long look at facts 1, 2, 3 and 4 below. Then come in and let's see how a Chevrolet truck can save you money in your business.

THE PHREST OF OUR PUTY YEARS

Urging Extra Care ON THE WEEK-END!

The approaching holiday week-end will bring increased traffic hazards to the people of our municipality.

More drivers and pedestrians will be using the streets and highways; more miles will be driven and hundreds of our school children will be on vacation. All these factors greatly increase the chance of accidents.

I earnestly urge all citizens, and all leaders in our community life to support efforts being made to prevent needless accidents.

The Department of Highways is engaged in an all-out campaign to bring home to those who walk or drive, the necessity for extreme caution and care at this time.

Our local traffic accident record can be kept down if we each do our part. Let us all work together to stop accidents.

WHERE'S MY MONEY?

It's a good question - but hard to answer at the la ht's a good question — but hard to answer at the last soment. Maybe hard to answer later on, too. Cash that's loos or stolen is not very often regained. That's why the ultimate answer is the B of M Travellers Cheque, when it es to peace of mind while travelling

Should you lose your B of M Travellers Cheques, or we them stolen, they are without value to anyon And you can claim a refund if they are not recovered.

You see - a Travellers Cheque becomes valid only when you sign it a second time in front of the per who cashes it for you.

So why take a chance? Why spoil more trip, with worry?

Changing cash into B of M Travellers Cheques
before you start costs you so little, and there's no
